

High quality and extra rigidity
for extreme work conditions

Central Articulated Hitch

Reliability and resistance

Blumaq offers its own brand of hitches for VOLVO articulated haulers. Manufactured in our facilities, Blumaq brand hitches are the best option when choosing an aftermarket part for your truck.

Our customers rely on Blumaq hitches because of:

- Their reliability shown by our experience in the sector and the selection of high quality materials in their manufacturing process.
- Their tested resistance to cracks and deformations due to static or dynamic stress or strengths applied in extreme working conditions, adding extra rigidity.

100% Blumaq built

Blumaq hitches improve the adaptation of your articulated hauler to harsh external conditions for an optimum work.

VOLVO® is a trademark registered by its owners and it is only used as an application reference for our spare parts.
