More safety,
additional capacity

Blumaq alternative tailgates for Volvo and Caterpillar applications

Blumaq manufactures mechanically operated tailgates suitable for Volvo and Caterpillar articulated haulers.

Blumaq tailgate optimizes the actual dump capacity increasing the productivity of your truck, improving also the safety in the work area by avoiding load dropping and so possible accidents.

We have the part you need

Blumaq tailgates are designed completely suitable to your equipment, and we offer them together with a fast assembly kit for a successful assembly.

Blumaq tailgates are fabricated in high quality steel and submitted to the same controls as OEM ones, for a performance and durability up to your expectations.

VOLVO® and CATERPILLAR are trade brands registered by their owners and are only used as an application reference for our spare parts.
