

Resistance  
and precision

## **Moil points**

# Choose the most suitable one.

Blumaq offers moil points with the highest quality standards in the market.

Our moil points are adaptable to any kind of job. Different designs according to the customer needs: conical, dust tool, chisel, etc.

Moil points available in stock for most of the hydraulic hammer brands in the market, with 24h delivery.

A wide range of part numbers with immediate delivery.  
All orders can be completed thanks to a very fast and efficient import service.
