

Transmission components

www.blumaq.com

CATERPILLAR®, KOMATSU®, CUMMINS®, VOLVO® and CASE® are trade marks registered by their owners and they are only used as an application reference for our spare parts.

Blumaq transmission components

The transmission is in charge of optimizing the power of the engine, controlling speed, torque and direction through its planetary gears and clutches.

Blumaq gears are geometrically designed according to the specifications of the original application to reduce stress and they are subjected to the treatments specified by original equipment manufacturer.

HEAT EXCHANGER

HUB

GEAR PUMP

TRANSMISSION HYDRAULIC PUMP

PRESSURE SENSOR

TRANSMISSION GASKET KIT

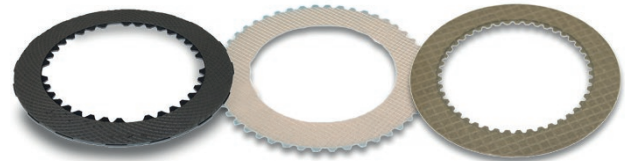

SPIDER AND BEARING ASSEMBLY

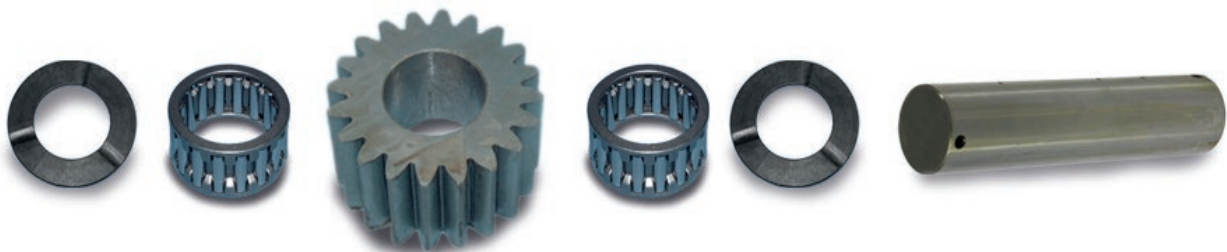

COOLER

TRANSMISSION SHAFT

FRICTION DISCS

Our discs are manufactured with next generation materials that provide excellent resistance to frictional wear and high temperatures. All this to make your transmission service life longer and its performance safe and reliable.

Blumaq supplies spare parts and maintenance products for construction, mining and earth moving equipment transmissions. With more than 90.000 reference numbers in stock, and the most detailed specifications report for all Blumaq products.
