

A complete range
for any type of excavator

Blumaq Hidraulic Brakers

Componentes de alta calidad para una máxima prestación

Our brakers offer unprecedented stable nitrogen pressure over time and provide the best power output performance.

Our breakers are manufactured and assembled in France. For their manufacture, best steels are selected combining the highest engineering standards.

LIGHT SERIES

Carrier weight range **0.7 - 12 ton**

Carrier weight range **65kg - 500 kg**

All Blumaq hydraulic BRAKERS includes:

2 working tools / centralized greasing / Nitrogen-filled chamber. Preloaded / Mounting bracket (without working tool) / Steel spring protected hoses with quick connect coupling

Made by:

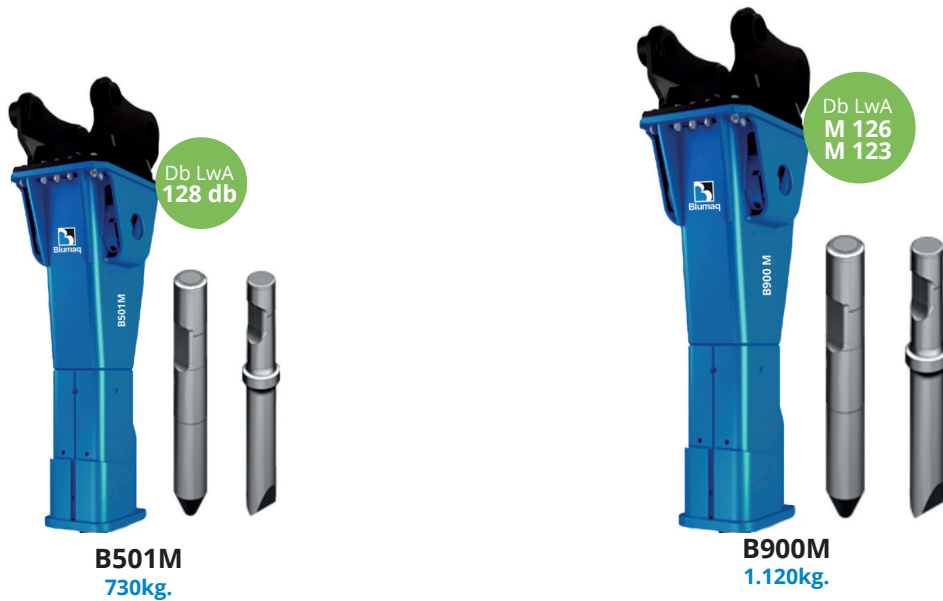

for Blumaq

MEDIUM-RANGE

Carrier weight range 730 kg - 1.120 kg

All Blumaq hydraulic BRAKERS includes:

2 working tools / centralized greasing / Nitrogen-filled chamber. Preloaded / Mounting bracket (without working tool) / Steel spring protected hoses with quick connect coupling

HEAVY-RANGE

Carrier weight range 20 - 60 ton

2 AUTOMATIC SPEEDS

All Blumaq hydraulic BRAKERS includes:

2 working tools / centralized greasing / Nitrogen-filled chamber. Preloaded / Mounting bracket (without working tool) / Steel spring protected hoses with quick connect coupling

GAMA PESADA ADVANCE

Carrier weight range 11 - 35 ton

1 SPEED

All Blumaq hydraulic BRAKERS includes:

2 working tools / centralized greasing / Nitrogen-filled chamber. Preloaded / Mounting bracket (without working tool) / Steel spring protected hoses with quick connect coupling

HEAVY-RANGE PLUS

Carrier weight range 18 - 90 ton

15 AUTOMATIC SPEEDS
